

Energypedia

<http://www.energypedia.info>

Bilateral Meetings

- Monday (04.30 pm - 06.30 pm)

Description

Platform for sharing information on renewable energy and energy efficiency in the developing countries. Currently, [energypedia](http://www.energypedia.info) has more than 5000 registered energy practitioners from all over the world, who have contributed to more than 3000 articles on renewable energy and energy efficiency. Additionally, more than 50,000 unique visitors visit energypedia every month. Content on energypedia is consolidated into headings called portals and the different portals on energypedia are [solar](#), [wind](#), [hydro](#), [bioenergy](#), [improved cooking](#), [productive use](#), [impacts](#), [mobility](#), [country energy situation](#) and [financing and funding](#).
